Discussion

SEBAC agreement update/position from the president regarding the Governor's Office request for union concessions as a way to help balance the budget.

Tuition reimbursement process continues to be problematic for some members. A process was established that included a tracking system but there appears to be a breakdown once the documents go to the comptroller's office. Next steps will include adding language to the forms with guidelines for turnaround times.

One principal position open and still not posted.

Union president will continue to send out welcome emails to new members that include membership forms.

Meeting adjourned @ 3:00. Next Executive Board meeting scheduled for June 1st @ 2:00 PM.

Respectfully submitted by Nelson Rivera, AFSA Secretary
